Save time & get paid faster

## Save time & increase productivity

Invoice Tracker was designed to help law firms with their accounts receivable by sending automated invoice reminders, increasing the likelihood of faster payments and saving time spent on administration.

See a 90% reduction in accounts receivables paperwork and a 25% improvement in productivity when you automate your invoice collection process.

## Invoice Tracker + Practice Management Software

Invoice Tracker integrates with Clio and Thomson Reuters Time & Billing software. Connect your accounts in one click and your invoices will sync automatically. Easily create invoice reminders using the customizable email templates, or create your own. Assign an invoice or batch of invoices to the reminder set and activate your invoice collections.
