Document Intelligence

Reach a new level of efficiency by connecting CLM workflows, gaining full visibility across your business's contract portfolio, and leveraging next-gen AI-powered contract review to manage risk and obligations.

Simplify contract intake and initiation

- Easily ingest third-party paper contracts with new customizable forms, Microsoft® Outlook, or Microsoft Teams
- Empower business stakeholders to self-serve with HighQ's powerful document automation tool.
- Confidently align to market best practices with Thomson Reuters Practical Law automated templates

The screenshot displays the HighQ contract intake interface. On the left, a sidebar shows 'Pages (3)' and 'Customer details'. The 'Customer details' form includes fields for Name (filled with 'Software Services Inc'), Street, Town or City, Region, and Post code. A note below the Region field states 'Leave blank if unknown or not applicable'. On the right, a preview of a document titled 'SLA for Software Services Inc' is shown. The document is a 'Software License Agreement' between 'Monument, Inc.' and 'Software Services Inc'. It includes sections for 'BETWEEN:', 'BACKGROUND:', and 'THE PARTIES AGREE:'. The 'THE PARTIES AGREE:' section includes a definition for 'Definitions, interpretation and scope'.
