THOMSON REUTERS®

# A Solid Foundation

## STABILITY

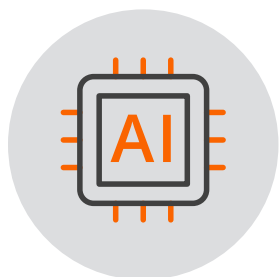

3E® is backed by the power of Thomson Reuters—the most trusted provider of essential news, information, and tools. Our customers rely on us to provide the solutions they need to find trusted answers that inform their most important decisions.

- **An unwavering focus and investment in the legal industry**
- **Unparalleled legal content and skill**
- **Unmatched security and compliance expertise**

## LEGAL FOCUS

We are the **only software provider with a sole focus on the legal market**. 3E was created by legal experts, for the legal industry. We know your business and support firms like yours with strategic solutions, legal expertise, and revolutionary technology—a unique combination that keeps you competitive, now more than ever.

## EXPERIENCE AND INNOVATION

We are reinventing the way you work by applying cutting-edge tools and technologies to meet your challenges. Honed by a century of legal expertise, we continue to **lead the charge into the future** with AI-enabled products, world-class technology acquisitions, worldwide innovation centers, and more.

## PROVEN IN THE MARKET

3E is selected as the preferred financial management platform by more firms than any other solution.

“We evaluated all the other different solutions and options available to us, and in the end with **3E**, it came down to the **innovation with the product, the technology behind it**, and the ability it gives us to provide better service to our clients, our attorneys, and staff.”

**Charles O. Collins**  
Information Technology Director,  
Ward & Smith

“**Better visibility of financial information is critical**, as there are huge benefits to our partners having a **deeper dive into finances** [with **3E Cloud**] – all the different drivers of work profitability, both firm-wide and on individual matters.”

**Jeremy Gubbay**  
Chief Operating Officer, Fox Williams

“We did investigate another industry-leading product, but we felt **3E could grow with us better** than anything else on the market. We needed **a solution with scope to expand**.”

**Lisa Jessup**  
Chief Financial Officer, Foley & Lardner

## CLOUD FOCUSED

3E Cloud is the first Software as a Service (SaaS) financial management solution for large and mid-sized law firms. It is built on the industry-standard Microsoft® Azure® platform and gives you the scalability, security, and flexibility you need.

- State-of-the art platform security services
- \$1 billion spent each year by Microsoft on security research and development, with a team devoted to network security

## DESIGNED FOR THE FUTURE

Designed with an advanced architecture, 3E can be configured to meet your processes today and grow with your firm into the future. Your investment will continue to deliver value long after your initial purchase.

- Integrate new technologies quickly and easily
- Streamline and automate processes with built-in capabilities
- Gain unlimited future growth through unmatched scalability

# Tailored for Your Needs

**3E works your way.** There's no need to fit your firm to our specifications. 3E provides a highly configurable platform that lets your firm easily make changes to fit your processes—without the help of an IT specialist and without writing code.

## CONFIGURABLE

Self-service utility helps you quickly adapt the functionality as your firm and client needs evolve.

- Configure workflows to make them your own
- Easily modify forms
- Add, remove, and rearrange fields throughout the system on any process

## 3E Reporting

Make faster, yet more informed, decisions with reports that work for you. Using our deep knowledge of the legal industry, we've created standard metrics and reports that give you a firm foundation to start. From there, you can add, remove, rearrange, group, and create calculated fields—easily and without coding experience.

## Stock Templates

No need to start from scratch with 18 out-of-the-box templates. We give you a foundation so you can configure your data into a variety of formats that works for the needs of your firm.

## OPEN

APIs offer discrete communication points so you can do more by bringing everything together in one place.

- Use public 3E APIs for integrations and extensions
- Discretely communicate with Thomson Reuters and third-party applications
- Get close monitoring and tight security for better transparency

## MODULAR

Our modular architecture offers flexibility so you can move to the cloud at your own pace. Modernize in phases with new cloud modules and modules that work with 3E Core on-premises.
