

Docubee: The Better eSign Solution for Lawyers

Cut down on non-billable hours without a painful software integration that requires lengthy retraining. Docubee intelligent contract automation gives you an all-in-one platform that fits your legal processes, not the other way around.

- Custom workflows featuring conditional logic
- Legally binding eSignatures
- Review & collaborate on contracts using any device
- AI-assisted contract generation
- Integrate with your legal CRM & other software
- No hidden fee pricing

Nearly 70% of law professionals spend their workday on non-billable work.

Solutions that Make it Possible

Gather

Collect information to incorporate into contracts & agreements.

Generate

Create contracts swiftly through templates, AI, or create & edit your own.

Share

Route contracts for review & approval.

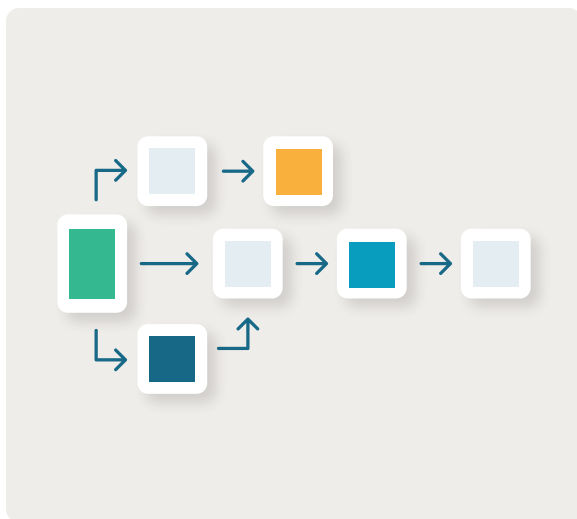

Sign

Capture secure, compliant, and legally binding signatures on any device.

Integrate

Connect to the systems you use daily, or build into your application with APIs.

How Docubee Makes Your Case

Automate your contract process from start to finish with customizable workflows that collect information, generate documents, and route contracts for review and signature.

- ✓ Cost savings with no hidden fees
- ✓ More efficient client intake process
- ✓ More time for billable work
- ✓ Faster turnarounds on case paperwork
- ✓ Improved client experience
- ✓ Easy document creation and collaboration

What Makes Docubee Different?

Customer Support You Can Count On

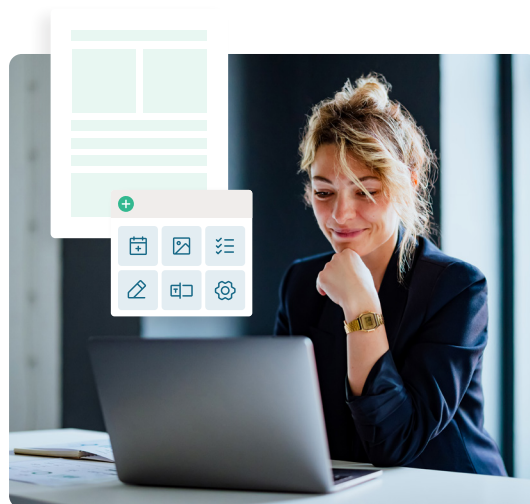

You'll always talk to a real person committed to resolving your issue when you contact our support team.

No Third-Party Integrations Needed

Docubee integrates with your existing legal CRM and productivity software out of the box to streamline your processes.

No Hidden Fees

Unlike other eSign and contract automation solutions, we never surprise you with unexpected fees or make you pay extra for essential functionality.

Keep Your Data Safe in the Hive

All data collected through Docubee is compliant with multiple compliance standards, including HIPAA, SOC 2, KBA, CCPA, and FERPA. Plus, our electronic signatures are legally binding in a court of law.
