KLDiscovery™

> Experienced data consultants design and *execute solutions* for the most complex data challenges.

Company Overview

We solve complex legal, regulatory, and data challenges for our clients around the world by leveraging our proprietary software backed by 24/7/365 support. We accomplish this through bespoke technologies and solutions that support your litigation, investigation, and compliance needs, as well as recovery from data loss.

A Proprietary Powerhouse

KLDiscovery has built, tested, and introduced some of the finest software in the industry spanning the Information Governance and Electronic Discovery Reference Models (IGRM and EDRM). Our battle-tested technology archives, preserves, collects, processes, hosts, and produces millions of files for our clients every day.

Enterprise Expertise

Serving clients for over 35 years, we have worked with 64% of the Fortune 500 and 98% of the Am Law 100 firms. As pioneers in data recovery through our Ontrack and Ibas business lines, KLDiscovery has partnerships with Dell EMC, HP, IBM, Apple, Toshiba, and Microsoft to solve the most extreme data loss scenarios.

Global Footprint

With 25 locations across 16 countries, including cloud, remote, and mobile solutions, our team is ideally positioned to address data management nweeds around the world.

Client Service Excellence

Innovative technology backed by 24/7/365 support empowers our company culture of exceptional customer service. Operating worldwide, our team "follows the sun" to ensure the effortless adoption of our services and software. Additionally, client portals provide greater transparency and insight into projects with on-demand reporting.

Consultancy and Advisory Services

Our team of experts provides professional guidance spanning all aspects of data management, information governance, and electronic discovery. Leveraging decades of experience across multiple disciplines, we plan, design, and implement client-focused solutions.

Specialty Areas

Our experienced team is uniquely equipped to manage M&A and second requests, cyber incident response and ransomware data recovery, joint defense hosting, and insurance matters.
